2. Orders by the Soviet transportation headquarters to the Berlin railroad district headquarters included:

25X1 On 4 October. Shuttle-train [] of 10 cars bound for Meinsdorf, and shuttle-train [] of 12 cars bound for Cottbus were loaded at the Juckerlog-Iltes
25X1 Lager railroad station. (1)

25X1 On 7 October. The troop trains [] from
Seddin were redispached to the Halle railroad district.

On 9 October. Shunting locomotives were to be made available at the following railroad stations: Rathenow, Rathenow-Nord, Gross Pehnitz, Mennhausen, Buschow and Prennitz. (5)

25X1 [] Comments.

- (1) During the previous exchange of personnel between Eastern Germany and the U.S.S.R., discharges were transported by shuttle-trains to processing points and recruits from these transit points to their posts.
- (2) On 6 October 1952, three troop trains from Wiesenburg to Crawinkel were reported by the same source. It was assumed that these trains possibly carried elements of the 43d Army Arty Bric which returned from Altengrabow to the area of the Eighth Gds Army. The assumption in the reference report, however, is no longer valid, as, according to another source, units of the Eighth Gds Army, including tank and AT gun units, were concentrated in the Wiesenburg area probably for field exercises. Thus it is believed that the troop trains mentioned in the reference report and the trains in the present report went empty from Wiesenburg to Ohrdruf and Crawinkel, after they had been used for the transportation of units of the Eighth Gds Army.

- (3) These troop trains possibly transported units which were to participate in the field exercises in the Dessau area, probably of the Eighth Gds Army. The troop trains from Brandenburg and Premnitz probably carried elements of the 12th Hvy How Arty Brig (US) and the 25th RL Brig respectively.
- (4) The troop trains from Altengrabow probably carried components of the 6th and the 34th Arty Div (US) back to their home stations. These units had not left Altengrabow for the fall maneuvers on 18 and 19 September 1952.
- 25X1
- (5) The assembling of shunting locomotives at the railroad stations mentioned indicates that the second fall maneuvers by units of the Fourth Gds Mecz Army from Templin held in the area south of Rathenow were completed on about 9 October 1952. Compare with the information on transportation of
- 25X1 these units between 2 and 5 October 1952.
